

Dear Friend,

Let me begin by asking you a question—Do you feel that Christians today are being attacked because they stand up for the word of God? If you are like most individuals you can probably name several instances where you have seen Christians ridiculed and God Himself attacked and removed. It is truly an epidemic in our society, and we believe it will get much worse before it gets better. Without bold action Christians in America will be a remnant of what she once was.

While many advocate that we just need to do “more and better” of the same, at the Truth & Liberty Foundation (TLF) we believe the time has come to embrace a more action based Biblical approach. It is no secret that our nation no longer has a moral compass, as we watch a dramatic increase of moral decline in our country. *Last year alone our culture did more to push God out of our nation than ever before. From same-sex marriage, the removal of the Ten Commandments from public platforms, Radical Islam attacks on U.S. Soil, abortion facilities selling baby body parts.* It’s safe to say Biblical values are all too quickly being forgotten.

We at TLF we have set out with three goals: to **TEACH**, **CHARGE** and **INSPIRE** Christians across our nation and move them to action. The goal to **TEACH** is key to the success of this ministry. For too long we as Christians have been silent regarding the things taking place in our nation. This has led to a severe lack of knowledge on key issues that will ultimately have an effect on the church. Christians need to be informed and understand what is going on around them. Every morning parents send their children out into the culture war; many not even realizing the battle going on in their own communities. The prophet Hosea observed, "My people are destroyed for lack of knowledge" (Hosea 4:6). *We are convinced if we do not learn from history then we are bound to repeat it.* The next goal is to **CHARGE**. As the adage states, "Knowledge is power," this is especially true of Godly knowledge. Teaching both current events and Biblical truth *we are able to develop plans of action to reach out into our communities.* How many times have you heard Christians say: What can we do about it? TLF will charge Christians with the task of outreach by providing real tools needed to get this done. Our third goal will be to **INSPIRE** as we strive to teach and charge Christians. With the devil on the attack it is easy to see his effect on our nation. It seems the more work he accomplishes the less Christians want to do. Many Christians have become apathetic because it seems the devil is winning. So *we have set out to inspire and remind Christians the battle is not ours, it is God's and with Him we will be victorious.*

A few years ago Andrew Chavarrilla had a dream to really change the way churches engage culture and wanted to rebuild the faith-founded principles of our nation. Now putting the experience gained in directing a nationally based ministry, leading grassroots organizations and efforts, having worked in the political arena both locally and nationally, and his background as a

minister coupled with leadership training gained from 6 years of military service. Andrew now a nationally recognized minister and media personality is using the doors that God has opened to impact our churches and our nation! He founded the Truth and Liberty Foundation. As our leaders and speaker Andrew will travel the nation spending time with churches and Christians teaching, charging and inspiring. In addition, we will be putting together digital training materials that can be accessed from anywhere and used by individuals, churches and christian groups to develop action plans for out reach.

However, we cannot do this without you. We are asking your financial support in this effort right now ***we need individuals, churches or groups to consider pledging a \$200/month gift to get us going.*** We have the team and skills to provide Christians today with truth filled, great looking material. We are prayerful that you will use your resources to help us put this material into the hands of people all across the country. Simply stated, we can not do this without your help. However, we want to bless you for blessing us. For every \$200 partnership pledge we will send you a free digital copy of Andrew's - The Heart of a Nation. You will also receive monthly updates on seminars and you will be essentially our test pilots and receive our training materials (digitally) or videos before we release them. We understand that this is a big commitment to ask, perhaps today you can't commit to a monthly contribution but ***you can do a one time donation,*** please do! For every onetime donation over \$50 we will also send a digital of Andrew's - The Heart of a Nation so that you too can be blessed and gain a knowledge of what our founders said about faith, family and freedom!

Serving Him, with you,

Andrew Chavarrilla
Executive Director
